Reform of the United Nations Security Council (UNSC) encompasses five key issues: categories of membership, the question of the veto held by the five permanent members, regional representation, the size of an enlarged Council and its working methods, and the Security Council-General Assembly relationship. Member States, regional groups and other Member State interest groupings developed ...

Reform of the United Nations Security Council - Wikipedia

The United Nations Security Council (UNSC) is one of the six principal organs of the United Nations (UN), charged with the maintenance of international peace and security as well as accepting new members to the United Nations and approving any changes to its United Nations Charter. Its powers include the establishment of peacekeeping operations, the establishment of international sanctions ...

The performance of the Eurozone economy is inextricably linked to the health of its banking system. That means the economy will likely stagnate unless European banks can build robust balance sheets, earn a competitive return on equity, and generate adequate capital to support faster growth and innovation.
