of 'shrinkage' or retail loss is not easy – its historical association with, and seeming prioritization of, crime-related problems, can act as a powerful disincentive to get involved. This has led some to consider abandoning the term 'shrinkage' in favor of Total Retail Loss – the latter perhaps being viewed as more appealing to a

Responses to retail crime and loss Retailers facing pervasive crime and loss attempt to control their problems by applying some basic principles (Bam?eld and Hollinger, 1996; Felson, 1996, 1998; Hayes, 1997a). In order to maximize shareowner value, companies must increase sales while reducing operating and merchandise costs (Hayes, 1997a, 2000).

### **Introduction - Macmillan International Higher Education**

Retail Loss Prevention is a set of practices employed by retail companies to preserve profit. Profit preservation is any business activity specifically designed to reduce preventable losses. A preventable loss is any business cost caused by deliberate or inadvertent human actions, colloquially known as "shrinkage".
