Decade is a compilation album by Canadian musician Neil Young, originally released in 1977 as a triple album, now available on two compact discs. It contains 35 of Young's songs recorded between 1966 and 1976, among them five tracks that had been unreleased up to that point. It peaked at No. 43 on the Billboard Top Pop Albums chart, and was certified platinum by the RIAA in 1986.

Decade (Neil Young album) - Wikipedia

x In the last decade, cancer therapy has been dominated by the huge technical advances in radiotherapy equipment, enabling more accurate targeting of cancers and greater sparing of normal tissue. Currently, advanced treatments, such as intensity-modulated radiotherapy and image-guided external beam and brachytherapy, are commonplace, and the use of charged particles such as protons is being ...
