One of the main demography-related problems in Romania, aggravated in mountain areas, is population decline, associated with demographic aging, out-migration of adult population, low living standards, etc. The Poiana Rusc? Mountains is one of the Romanian areas representative of this demographic phenomenon.

## **POST-COMMUNIST DEMOGRAPHIC CHANGES IN ROMANIAN MOUNTAIN**

50% of the European brown bear population lives in the Carpathian Mountains. In the Romanian Carpathian Mountains you can find many national parks, natural parks and reservations, which have flora and fauna specimens protected by the law at EU and international level.

Fagaras Mountains – the highest mountains in Romania. Interesting areas for climbing are: Sambetei Valley (Col?ul Balceni), Vistisoarei Valley (the slope in the back of the valley), Ucea Mare and Podragului Valleys, Vartopel- Arpasel ridge, Vanatoarea lui Buteanu (eastern and western slopes) and the slopes that border the Negoiu Peak and the Caltunului Slope.

## **Fagaras Mountains - the highest mountains in Romania**

The lakes nestled between the mountains are to die for. Mountain lakes are cold, clean and usually crystal-clear. This general rule applies to the majority of lakes in Romania too. That's why they make for outstanding hiking destinations. The most spectacular ones can be found amongst limestone rocks which boast an imposing turquoise hue,...

Hiking in Romania's Carpathian Mountains. This massive mountain range carves its way through Eastern Europe, winding through Poland, Czech Republic (or now I'm supposed to use Czechia, but haven't quite gotten used to it), Slovakia, Ukraine, Romania and Serbia. The Southern Carpathians feature the longest and highest limestone ridge in Romania...
