A sail plan is a set of drawings, usually prepared by a naval architect which shows the various combinations of sail proposed for a sailing ship.Alternatively, as a term of art, it refers to the way such vessels are rigged as discussed below.. The combinations shown in a sail plan almost always include three configurations:

Precision Boat Works

In sailing, a block is a single or multiple pulley.One or a number of sheaves are enclosed in an assembly between cheeks or chocks.In use, a block is fixed to the end of a line, to a spar, or to a surface.A line (rope) is reeved through the sheaves, and maybe through one or more matching blocks at some far end, to make up a tackle.. The purchase of a tackle refers to its mechanical advantage.
