Signs and symptoms. Episodes of vasovagal syncope are typically recurrent and usually occur when the predisposed person is exposed to a specific trigger.

## **Reflex syncope - Wikipedia**

- Heart: When you sit, blood flows slower and muscles burn less fat, which makes it easier for fatty acids to clog your heart. Research published in the Journal of the American College of Cardiology, for instance, showed that women who sit for 10 or more hours a day may have a significantly greater risk of developing heart disease than those who sit for five hours or less. 5

As older turbines see subsidies expire, thousands are expected to be taken offline due to lack of profitability. Green nightmare:

Wind park operators eye shipping thousands of tons of wind turbine litter to third world countries – and leaving their concrete rubbish in the ground. The Swiss national daily Baseler Zeitung here recently reported how Germany's wind industry is facing a ...
