SNAP households rely more on school lunch and breakfast toward the end of the SNAP month, when the month's benefits may be exhausted. School lunch participation among 11-to-18 year olds decreases by about 20 percentage points immediately after SNAP benefits payment while breakfast drops by an even larger amount, according to Agustina Laurito and Amy Ellen Schwartz.

The years from the end of World War II into the 1970s were ones of substantial economic growth and broadly shared prosperity. Beginning in the 1970s, economic growth slowed and the income gap widened.

A Guide to Statistics on Historical Trends in Income

In a kind of spooky experiment, scientists at the Max Planck Institute for Human Cognitive and Brain Sciences reveal that our decisions are made seconds before we become aware of them. In the study, participants could freely decide if they wanted to press a button with their right or left hand. The only condition was that they had to remember when they made the decision to either use their ...

Brain Scans Can Reveal Your Decisions 7 Seconds Before You

As colder weather approaches, what changes do you make? You probably start to wear heavier clothing, including long pants, long-sleeved shirts, and coats. You may also break out the gloves and a hat if the temperature drops below freezing. But do you think about moving far away or sleeping for the ...
